ANEXO IV

1486

Adjuntamos listado de motos en depósito Monte 7490 (144) Ciudad Autónoma de Buenos Aires

Declaraciones:

Las motos están numeradas físicamente y se encuentran en el primer depósito de la fila baja.

Las motos que tienen número de interno y número de certificado (importación/nacionalización), son motos que estaban en el sistema de Juki SA como motos de cambio, el certificado es digital (lo tiene registrado el Registro de la propiedad del motor) y están en condiciones de ser vendidas.

Las motos que no tienen número de certificado y si número de interno, estaban en el sistema, pero sin certificado cargado.

Las motos que no tienen números de interno ni de certificado, son motos que no estaban cargadas al sistema, pero que aparecieron físicamente.

Hay motos que no tienen número de motor o de chasis porque son de difícil lectura.

Los 50 prototipos están en depósitos detrás del servicio técnico y se trata de motos completas que no tienen Licencia de configuración de modelo y por lo cual carecen de documentación habilitante para poder circular en la vía pública.
